Combinations of different trailblazing simil leathers make up the BelApost Saten Collection. The outer box is hand-wrapped in simil leather of darker shades, while the inner partitions are encased in simil leathers of lighter nuances, making this collection exclusive and chic.

The 9 different modules of this series give the end users the possibility to constantly redesign their drawers compartments, following new fashion trends or the changing of the seasons, to comfortably fit their fashionable belongings.

The soft-touch of the simil leathers and their color contrasts give to BelApost Saten Collection, and the wardrobe that welcomes it, an exceptional elegance.

La combinazione di differenti simipelli tattili è la base della collezione BelApost Saten. L'esterno della scatola realizzato in simipelle in colori scuri e contrapposto all'interno realizzato con simipelli più chiare, uniti alle lavorazioni manuali dei nostri artigiani, rendono gli accessori di questa collezione dei pezzi di estrema eleganza. Con differenti dimensioni in larghezza, la Saten Collection permette di disegnare l'interno di ogni cassetto in base alle necessità del cliente finale in un modo unico. La morbidezza delle fintepelli utilizzate e il contrasto dei colori scelti donano alla Saten Collection l'eleganza perfetta per ogni tipo di cassetto.

A simple yet iconic design and the use of avant-garde materials are the features that make the BelNet system innovative and pragmatic. The choice to use compact laminate as the main component of our kitchen accessories is fruit of an extensive research aimed to find a material that not only is water and steam resistant, durable and easy to clean, but also a material with highly hygienic and antibacterial properties, that is at the same time scratch resistant and particularly apt to be in contact with food and moisture.

Un design semplice e iconico, e un uso di materiali d'avanguardia, sono le principali caratteristiche che rendono il sistema BelNet innovativo e pragmatico. La scelta dell'utilizzo del laminato compatto in spessore 4mm come materiale per la realizzazione degli accessori, è frutto di una ricerca accurata che ha avuto come punto di arrivo la selezione di un materiale resistente all'acqua, al vapore, facile da pulire, ma anche ad alta igienicità e con buone proprietà antibatteriche e antigraffio, tutte caratteristiche che rendono questo materiale perfetto se utilizzato al contatto con il cibo.

Persistent research in design trends and product optimization gave birth to BelNet CuiBUS; an aluminum and compact laminate grid equipped with BelNet 472 inserts, that horizontally spruces up the kitchen drawers.

Coming in three standard width modules of 600, 900 and 1200mm, BelNet CuiBUS was designed to fit the most widely used 500mm drawers slides. Extremely practical and flexible, CuiBUS can be equipped with the BelNet 472 accessories, as well as dedicated smaller inserts, to arrange the drawers according to the most diverse storage needs.

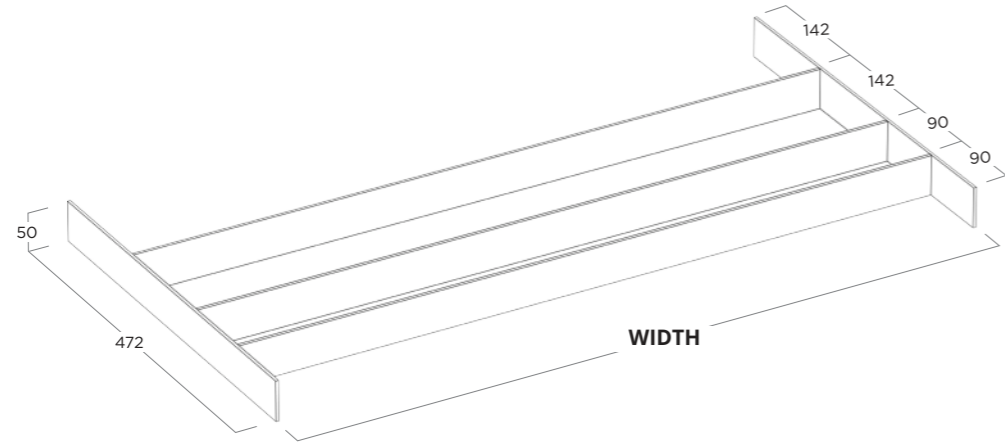

The timeless finishings, Black, Silver Lead and Brown Metal Grey for the aluminum components, along with the Corda, and Canaletto Walnut of the inserts, bring absolute elegance and style in the kitchen, while perfectly serving the purpose of decluttering the inner space of drawers.

La serie BelNet CuiBUS si compone di una griglia in alluminio e laminato compatto che divide il cassetto orizzontalmente. La griglia può accogliere tutti gli accessori della serie BelNet 472. BelNet CuiBUS è stato disegnato per poter essere accoppiato alla maggior parte delle sponde metalliche dei cassetti di profondità 500mm presenti sul mercato, nei moduli di larghezza 600mm, 900mm e 1200mm. Estremamente pratico e flessibile, BelNet CuiBUS, può essere accessorizzato con tutti gli accessori della linea BelNet 472 e con altri accessori di dimensioni più piccole disegnati appositamente per questo tipo di griglia, così da ottimizzare lo spazio nel migliore dei modi.

Le eleganti finiture dell'alluminio nei colori Nero Spazzolato, Piombo e Brown Metal Grey, accoppiate con i colori Corda e Noce Canaletto degli accessori, rendono l'interno del cassetto unico ed elegante.

Disegnato per portare ordine sul top della cucina, il canale attrezzato in appoggio si può posizionare dove più si preferisce proprio perché è solo appoggiato sul top della cucina e fissato grazie ad uno speciale velcro che dà la possibilità di rimuoverlo ogni qualvolta ce ne sia il bisogno.

Proprio questa caratteristica di fissaggio, che evita lavorazioni sul top della cucina, lo rende particolarmente semplice da installare anche su una cucina già esistente. Equipaggiato con tutti gli accessori della linea BelNet 472, questo canale attrezzato è estremamente pratico e funzionale, portando carattere anche alle cucine più semplici.
