CALL ME ECB

receiver unit for remote control

Code	1770801
Input	24VDC
Output	24VDC
Power	max 72W
Wiring IN	150mm Micro24 male
Wiring OUT	500mm 10x Micro24 female

CALL ME is a single-channel remote control that switches on, switches off, and dims (10–100%) the light intensity of luminaires connected to the CALL ME ECB receiving unit. A single remote control can operate an unlimited number of CALL ME ECB units, provided they are within a maximum distance of 15 meters. It is possible to set up configurations in which one or more CALL ME ECB units are controlled by multiple remote controls (up to 7). To pair CALL ME with the CALL ME ECB receiving unit, please refer to the user manual.

CALL ME

remote control unit

CALL ME is a single-channel remote control for controlling single-colour LED luminaires @24VDC powered by the CALL ME ECB (Electronic Control Board) receiver unit. Quick presses of the CALL ME button switch the lights on and off, while a sustained press adjusts the light intensity (10–100%) of all luminaires connected to the CALL ME ECB unit. The radio control comes complete with a battery (3V CR2032) and a “pocket” support for wall mounting. The receiver unit is supplied with a power cable and Micro24 distributor. CALL ME is also available in sets with the receiver unit and radio control “pre-paired” from the factory. Recessed installation supports for the radio control are available. Power supply not included, to be ordered separately.

SET CALL ME

remote control unit

The SET CALL ME combines a single-channel remote control for controlling single-colour LED luminaires powered by the CALL ME ECB (Electronic Control Board) unit, provided in the package. Quick presses of the CALL ME button switch the lights on and off, while a sustained press adjusts the light intensity (10–100%) of all luminaires connected to the CALL ME ECB unit. The radio control comes complete with a battery (3V CR2032) and a “pocket” support for wall mounting. The receiver unit is supplied with a power cable and Micro24 distributor. CALL ME is pre-paired “from the factory” with the receiver unit CALL ME ECB. Recessed installation supports for the remote control are provided in the package, which includes both round and square models. The package also includes a special tool for removing CALL ME from the support. To use the receiver unit for controlling single-colour LED luminaires @12VDC, an adapter cable set is available that configures CALL ME ECB receiver unit with the Micro12 connection system. Power supply not included, to be ordered separately.
