produit en plastique recyclé

Linea di portaposate modulari dotati di **un'aletta di finitura laterale che consente di inserire il portaposate anche in una porzione di cassetto**, offrendo la possibilità di accessorizzare la restante parte di cassetto a piacere.

L'aletta di finitura è stata studiata per creare un effetto di continuità con il cassetto donando un aspetto gradevole e lineare all'insieme. I moduli disponibili consentono di creare numerose varianti di prodotto adattabili a differenti larghezze di cassetto. Combi è resa ancora più funzionale dalla possibilità di accessorizzare i moduli con portacoltelli e tagliere.

Per creare un legame armonioso tra i diversi vani della cucina, il linguaggio estetico della Linea Combi usa le stesse geometrie dei raccoglitori per raccolta differenziata "Sistema 9XL".

Line of modular cutlery trays fitted **with a side wing so that the cutlery tray can even be inserted into a portion of drawer**, giving you the possibility to accessorise the remaining part of the drawer the way you want. The wing has been designed to create a continuity effect with the drawer giving an overall pleasant and linear look. The modules available create numerous variations of product adaptable to different drawer widths. Combi is made even more functional by the possibility to accessorize the modules with knife holders and chopping board.

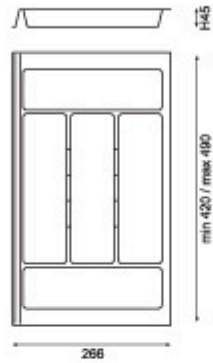

To create a harmonious connection among the different niches in the kitchen, the aesthetic language of Combi uses the same shapes of the "Sistema 9XL" collectors for separate waste collection.

Ligne de range-couverts modulaires **pourvus d'une ailette de finition latérale qui permet d'insérer le range-couverts également dans une partie du tiroir**, en offrant ainsi la possibilité d'accessoiriser la partie restante à votre convenance. L'aillette de finition a été étudiée pour créer un effet de continuité avec le tiroir tout en conférant un aspect agréable et linéaire à l'ensemble. Les modules disponibles permettent de créer de nombreuses variantes du produit adaptables à différentes largeurs de tiroir. La possibilité d'accessoiriser les modules avec range-couteaux et planche à découper font de Combi une ligne encore plus fonctionnelle. Pour créer un lien harmonieux entre les différentes parties de la cuisine le langage esthétique de la Ligne Combi utilise les mêmes géométries des récipients pour le tri sélectif "Système 9XL".

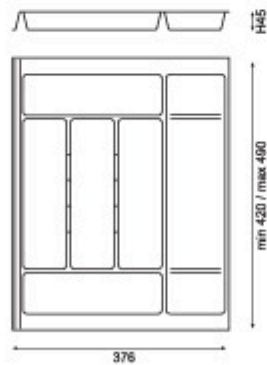

Aletta di finitura laterale.
