PS-SR225SS Seismount Stainless Steel – 225mm

INDUSTRY FIT:

SPECIFICATIONS:

The PanelSafe Seismount in stainless steel is a strong solution for high volume marine installations where added security and control of the panel is required. The Seismount allows the panel to be suspended below the ceiling for convenient servicing behind the panel or controlled removal of the panel. Install with M10 pan head screw or 6.3 x 8mm euro screw. Simply unhook the strap from the screws to remove the panel.

Drop length 225mm. Drop load 144kg

PS-SR225SS

MATERIAL:
Stainless steel

USE WITH:

PC Standard Range,
LP Low Profile Range,
VL Very Low Profile Range,
MC Metal Range

PANELSAFE PS RANGE

BENEFITS
- Low cost solution for high volume applications
- No special tools required for installation
- Install directly onto substrate face with screws
- Controlled removal of large panels
- Seismic security for overhead panels – prevents panels from falling
- Stainless steel composition for longevity in marine applications

APPLICATIONS
- Ceiling panels
- Wall panels
- Large panels
- Inspection and service panels

INSTALLATION: Partially exploded through section showing typical installation method
