

**TOM**  
touch dimmer switch

<b>Code</b>	F0126000040
<b>Input</b>	12-24Vdc
<b>Output</b>	12-24Vdc
<b>Power</b>	36-72W
<b>Wiring IN</b>	2000mm Micro24 male*
<b>Wiring OUT</b>	2000mm + 150mm 10X Micro24 female*

\* for Micro12 connections, request the adaptor cable set.

The ON-OFF functions are simply activated with a quick tap. The brightness is adjusted with a long touch (5-100% dimmer function) and is then stored until the next adjustment (memory function).

# TOM

## Dimmable touch switch

TOM is a micro touch switch for controlling single-colour LED luminaires. Designed for flush-mounting in a hole (diameter of 20 mm and depth of 10.5 mm), it connects between the power supply and the lamps (both 12Vdc and 24Vdc). It manages the on-off functions and the brightness. Available in an aluminium finish, it incorporates a light ring to indicate the operating status.
